ADDITIONAL EXPERIENCE

Previous experience of working in the sales industry for several years in the UK. Developed real customer service skills, dealing with customers and making sales face to face in various different environments.

I also think it's worth mentioning that I have, in my spare time, created my own small business as a private Teacher in Bangkok. I created this alone, then also promoted and advertised the page (and myself) by using social media. It has so far, been quite successful. Furthermore, I believe that this experience and the skills I have developed and use on a daily basis are directly transferrable to this role, for example:

- Meeting with potential new students to discuss their needs and aims.
- Conducting a needs analysis with the student and using this to tailor a course (business, general or future educational needs such as TOEIC or IELTS).
- Level testing to gauge the students level, and plan accordingly course wise.
- Personal guidance and supervision over the course duration while developing a real rapport with each new student.
- Mock examination and interview scenarios for exams and jobs e.g. Flight Attendant, Hospitality Industry, VISA interviews etc.

Here is a link to provide an example of the rapport and strong relationships I am capable of making with potential new students (also please check for reviews in Thai language on the comments section of the post):
